Benbecula Airport Port-adhair Bheinn na Faoghla

Carbon Footprint

Our carbon footprint is a calculation of the greenhouse gas emissions caused as a result of all HIAL's operations and activities across each year.

Market Based

A market-based methodology reflects emissions from electricity that companies have purchased. HIAL has chosen to purchase electricity from 100% renewable sources.

Location Based

A location-based methodology reflects the average emissions of energy consumption from the national grid.

All figures are based on tCO₂e (tonnes (t) of carbon dioxide (CO₂) equivalent (e))
